## About Me

As a person, I am driven and curious with many years of experience in various roles. I studied computer science between the years 2018-2024, and in addition to my studies, I often work on personal projects and ideas in my spare time.

## Education

Mälardalen University, 2022

- University degree in computer science

Luleå University of Technology, 2023

- Web development
- Graphical user interfaces

Halmstad University, 2020

- Computer science
- Project management and project work

## Personal Skills

## Experience

UX / UI Designer, 2023-08 – 2024-05

- HiQ Mälardalen – SAAB Aeronautics

As a leading UX designer, my main responsibilities were to independently evaluate and improve user experiences and user interfaces on new test platforms.

Software Developer, 2023-04 – 2023-05

- Prevas AB – Sandvik Coromant

Design and development of graphical user interfaces for robot cells, as well as designing icons for both Cell Manager Core and Cell Manager in the operators' handheld devices.

Software Developer, 2022-09 – 2023-03

- Prevas AB – Sandvik Coromant

Development of a web service in .NET that sends and stores production data and parameters from a powder press machine in an SQL database.

## Hobbies
